DETAILED ACTION

Election/Restrictions

1. **Restriction** to one of the following inventions is required under 35 U.S.C. 121:
 - I. **Claims 1-17 and 49-61**, drawn to a method and a system for establishing a videoconference classified in **class 370, subclass 261**.
 - II. **Claims 21-48**, drawn to the functions of a videoconferencing services switch classified in **class 370, subclass 360**.

2. **The inventions are distinct**, each from the other because the following reasons:

Inventions **I** and **II** are relating as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the invention in **Group I** discloses a method and a system for establishing a videoconference. On the other hand, the invention in **Group II** discloses the functions of a videoconferencing services switch. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purpose as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for **Group I** is not required for **Group II**, and vice versa, each group is distinct to each other; therefore, restriction for examination purposed as indicated is proper.

If the Applicants elect **Group I** above, for example, the Applicants would say, "**I elect group I**, which is drawn to **Claims 1-17 and 49-61**". On the other hand, if the Applicants elect

Art Unit: 2661

Group II above, for example, the Applicants would say, "**I elect group II**, which is drawn to **Claims 21-48**".
